PROFILE

Systems analyst and full-stack engineer with a decade of shipping software — from MBSE tooling at Dassault Systèmes to AI-powered SaaS and city-scale apps. Comfortable across requirements, architecture, frontend, backend, and infrastructure. Based in Kaunas, Lithuania.

EXPERIENCE

Dassault Systèmes, Product Owner / Systems Analyst Sep 2018 — Present

- Own requirements, architecture and feature planning for CATIA Magic / MagicDraw — the industry-leading MBSE platform
- Drive persistence, collaboration and performance roadmap; direct enterprise customer engagement

iSystem, Software Developer Jan 2022 — Dec 2023

- Built a product tools management system in a TypeScript monorepo (React, Nest.js, NX, PostgreSQL)
- Designed scalable REST APIs and data-heavy frontends with shared NX libraries

PPM, React Developer May 2020 — Dec 2021

- React + TypeScript frontend development of business web applications and data dashboards

Kaunas University of Technology, Academic Assistant Sep 2017 — Jun 2020

- Lectured undergraduate workshops on relational databases, SQL and PHP web development

ES4B, Web Developer Sep 2016 — Mar 2018

- Full-stack delivery of CRM systems, e-commerce platforms and custom client websites
- Owned entire delivery cycles — scoping, integrations, payments, deployment — while finishing studies

Digimedia, Web & Server Administrator Sep 2013 — Aug 2015

- Administered multiplayer game servers and built internal web tooling for a Lithuanian gaming portal

EDUCATION
