LUKAS RUŽAUSKAS

AI Product Engineer · Systems Analyst · Full-Stack Developer

lukas@ruzauskas.lt · ruzauskas.lt · github.com/Neutronas · linkedin.com/in/lukas-ruzauskas/

AI Product Engineer with over 10 years of experience in software engineering, turning complex engineering needs into intelligent, production-ready products. Currently building collaboration and persistence capabilities of CATIA Magic, an MBSE platform trusted by global aerospace, defense and automotive leaders, working directly with their engineering teams. Independently designs and delivers AI-powered tools and full-stack web applications from concept to production.

EXPERIENCE

3DS

Product Owner / Systems Analyst
Sep 2018 — Present

Dassault Systèmes

- Requirements, architecture and feature planning for CATIA Magic / MagicDraw — industry-leading MBSE platform
- Drive persistence, collaboration and performance roadmap across a globally distributed team
- Build solutions trusted by **NASA JPL, Boeing, Airbus, Apple, Volkswagen Group, BMW, Renault, KNDS, Northrop Grumman** and other industry leaders, working directly with their senior engineers and engineering managers

iS

Software Developer
Jan 2022 — Dec 2023

iSystem

- Full-stack TypeScript monorepo: React, Nest.js, NX, PostgreSQL

PPM

React Developer
May 2020 — Dec 2021

PPM

- React + TypeScript business web applications and data dashboards

KTU

Academic Assistant
Sep 2017 — Jun 2020

Kaunas University of Technology

- Lectured workshops on relational databases, SQL and web development

ES4B

Web Developer
Sep 2016 — Mar 2018

ES4B

- Full-stack delivery of CRM systems, e-commerce and client websites

DM

Web & Server Administrator
Sep 2013 — Aug 2015

Digimedia

- Linux game server administration and WordPress-based web portal tooling

EDUCATION

KTU

Kaunas University of Technology, MSc in Information Systems Engineering
Sep 2017 — Jun 2019

Master's thesis: Model-Based Fault Tree Analysis (MBSE). Graduated with honours.

KTU

Kaunas University of Technology, BSc in Informatics
Sep 2013 — Jun 2017

Software engineering, databases, algorithms, networking, computer architecture.

SKILLS

TypeScript · JavaScript · React · Next.js · Svelte · Node.js · Nest.js · PostgreSQL · Python · C# · SQL · LLM integration · Product ownership · Agile
